

The background features a detailed illustration of a blue, armored robot with a complex, mechanical design. The robot is positioned on the left side of the frame, with its head and upper body visible. It has a helmeted head with a visor and various mechanical details. To the right of the robot, a black gaming microphone is shown. The microphone has a silver mesh grille and a blue logo that reads "newskill". It is mounted on a black stand with a flexible boom arm. The entire scene is set against a dark, textured background.

IXION

G A M I N G M I C R O P H O N E U S E R G U I D E

GETTING STARTED

- 1-Plug the USB Microphone Cable into the USB connector on your computer.
2. If you use the microphone with a Windows computer to record your sound, please choose the 'Listen to this device' option under 'Recording Devices' in the 'Sound settings', which can be accessed via Control Panel.
Set the 'Levels' of the microphone properties in your computer's sound settings to the highest level.
3. IXION is perfect with video chat applications like Skype and recording software to narrate, create podcasts, or lay down some smooth vocals, etc.

PRIMEROS PASOS

- 1-Conecte el cable del micrófono USB al conector USB de su ordenador.
2. Si utiliza el micrófono con un ordenador con Windows para grabar su sonido, Seleccione la opción 'Escuchar este dispositivo' en 'Dispositivos de grabación' en la 'Ajustes de sonido', a los que se puede acceder a través del Panel de control.
Ajuste los niveles de las propiedades del micrófono en la configuración de sonido de su computadora al nivel más alto.
3. IXION es perfecto con aplicaciones de chat de video como Skype y software de grabación para narrar, crear podcasts, o establecer algunas voces suaves, etc.
