## Important Tips

1. Download "VR Games" Apps or "3D Split Screen" Videos to your smartphone. Based on the game menu to select installation a video player or game software, test if it supports Left-and -Right split screen display and full-screen display. (Picture A,B)

[You can search the 3D split screen videos on YouTube, Dual Play, SimulView and also search "vr player" on google play.]

2. Lens Adjustment
①PD adjustment: Adjust the PD of Lens (Picture E)
②Object distance adjustment can adapt myopia (in 600 degree) without wearing myopia lens.(Picture F)
③Focal adjustment: For the best clarity, you can adjust the lens focal length from left and right.

3. Wearing on head（Adjust the straps for suitable tightness), then you can enjoy the 3D-effect
①Put the mobile phone into the device, you can choose the video screen by shaking your head from left and right in the video list (Picture H)
②VR games: playing 3D games also can be controlled through the boby sensuous (Picture H)
